OF EMERGENCY SERVICES

SITUATION SUMMARY

Ebola Virus Disease (EVD) Outbreak, CDPH Weekly Report

- The outbreak of Ebola Virus Disease (EVD) in the West African nations of Guinea, Sierra Leone, and Liberia continues to expand but does not pose a significant risk to the United States. A small cluster of cases had been identified in Nigeria associated with one person, but the virus does not appear to have been widely spread. In the West African nation of Senegal, one case had been confirmed. The case in Senegal is related to a man who traveled there from Guinea. Authorities in Senegal are monitoring for additional cases, but Ebola virus is not considered to be currently circulating in Senegal.
- As of September 6, the U.S. Centers for Disease Control and Prevention (CDC) has reported a cumulative total of 3707 suspect and confirmed cases and 1848 deaths.
- There are currently no confirmed or suspect cases of Ebola under investigation in California. At present, the weekly situational assessment for the risk of Ebola infection in California is very low.

Full CDPH report attached

SITUATION SUMMARY

Southern California Excessive Heat Event, Multiple Counties

SITUATION OVERVIEW:

The weather throughout portions of Southern California is expected to warm considerably into this weekend and then enter a heat wave early next week throughout the Southwest. Complicating the forecast in the south for next week is a tropical storm off Baja California. The National Weather Service (NWS) is beginning to project very warm weather through Thursday in Southern California. Temperatures are projected to be 15 to 20 degrees warmer than normal for this time of year and near record to record temperatures are expected at some locations.

Phase II Criteria of the Heat Plan has been met:

National Weather Service has issued an Excessive Heat Watch in effect Friday through Monday for portions of Southern California.

Actions

- Cal OES Southern Region initiated a coordination call with the National Weather Service Weather Forecast Offices (WFOs), CDPH, and the affected Southern Region Operational Areas.
 - Cal ISO is anticipating normal operation through the upcoming heat wave.
 - Although electricity demand is expected to be high in Southern California, adequate resources are currently forecast to be available. No Flex Alerts are anticipated to be needed at this point; however, we will continue to monitor forecasts closely.
- Cal OES will disseminating excessive heat information through:
 - Daily Weather Outlook
 - Cal OES Daily Situation Report
 - State Weather Situational Awareness Briefing to stakeholders

A conference call is anticipated for Sunday, September, 14, 2014; time and conference call number to be announced.

Conference call notes from Southern Region from today's call are attached.

SITUATION SUMMARY

Magnitude 6.0 Earthquake, American Canyon, Napa County

SITUATION:

On Sunday, August 24, 2014, at 0320 Hours PST, a magnitude 6.0 earthquake struck five miles northwest of American Canyon, CA.

Health and Medical

- California Public Health reported that five (5) Women, Infant and Children Centers (On in Solano County; Four in Napa County) are opened and fully operational.

Utilities

- Stabilization and repair of the distribution leaks caused by the August 24th Napa Earthquake is functionally complete for the City of Napa. The status of local sewer main repair and bacteriological history since the earthquake has been reviewed by the SWRCB'S Division of Drinking Water. Based on these factors, the Division of Drinking Water is lifting the blanket precautionary BWN issued for the City of Napa on 8/24/14.
- The Browns Valley area remains vulnerable due to the damage to the roof of the million gallon storage tank (Reservoir B tank) in that area. This area potentially could be subject to localized BWNs in the next few weeks if pumps from other pressure zones are unable to meet demand; however, at present there are no immediate risks.

Mission Tasking

2014-CREOC-5600: 10 Structural Engineers for City of Vallejo – On Scene.

2014-SOC-5712: 6 Caltrans inspectors to inspect over bridges in Napa – Coordinated.

2014-SOC-5520: 25 CALBO Inspectors – Closed.

2014-SOC-5630: 20 SAP inspectors for Napa - On Scene.

Activations

The Coastal Region Duty Officer and assigned field staff, in coordination with Cal OES' Recovery Division and interested stakeholders, will continue to monitor activity, conduct follow-up on related impacts and associated costs, actions taken, and facilitate additional state assistance as needed.

- Napa County EOC - Napa Recovery Operations Center (ROC) – Activated Mon thru Fri from 0800-1700 hours until further notice.
- In support of the Bridge Inspection Mission request from the County of Napa, Caltrans Structure Maintenance & Investigation's Incident Command Center is currently activated. The center will be on Duty Officer Status throughout the weekend and stood up again on Monday.

Deployments

Cal OES staff are deployed to Napa for IA PDA.

SITUATION SUMMARY

Magnitude 6.0 Earthquake, American Canyon, Napa County (Continued)

Recovery

- On September 11, 2014, the President declared a major disaster declaration in Napa and Solano Counties for the Napa Earthquake. The declaration provides Public Assistance (PA) funding for emergency work and the repair or replacement of disaster-damaged facilities within the two counties. The Individual Assistance (IA) portion of the request remains under review pending the outcome of the additional IA PDAs taking place at this time.
- Based on a request for additional IA information for the major disaster declaration request, IA teams conducted PDAs 09/8/14 through 09/12/14 in Napa County, the City of Vallejo, and Solano County. Additional IA PDAs are being scheduled for the week of 09/15/14 in Napa County.
- The City of Napa website has information regarding earthquake recovery resources.
- Cal OES Recovery PA is working closely with the Operational Areas to schedule the PA Applicants Briefing to advise state agencies, local governments, and private non-profit organizations impacted by the earthquake the types of assistance available and the programmatic guidelines. Tentative time and location: 09/23/14 at 1000 hours in the Chardonnay Hall, 575 3rd Street, Napa, CA.
- On 09/04/14, IA participated in a Long Term Recovery Committee (LTRC) meeting with key organizations interested in recovery efforts. A follow-up meeting was held 09/05/14, the Napa LTRC is in the process of forming its leadership, establishing policies and procedures, and identifying a Mission statement.
- State Voluntary Agency Liaison (VAL) is working with Solano VOAD to coordinating a Long Term Recovery discussion meeting for Monday, 09/15/14. Participants will include voluntary organizations, state and federal VAL, and leadership from Northern CA and Solano VOAD.
- American Red Cross Assistance Center: Napa Marriott Hotel opened on 09/01/14 from 1000 to 1900 hours for Napa and Solano County; center will be open for two weeks.
- Local Assistance Center (LAC): County and City of Napa: LAC opened on 09/08/14 at 301 1st Street, Napa (corner of 1st Street and Silverado Trail). The LAC is open until further notice.

SITUATION SUMMARY

NORTHERN CALIFORNIA FIRES

Happy Camp Complex, Vegetation Fire, Siskiyou County

Happy Camp District, Klamath National Forest

Per CAL FIRE, Cal OES Duty Officers, and ICS-209 as of 09/12/14 at 1737 hours:

FRA

- 108,240 acres, 50% contained
- Type 1 Team in command
- Expected Containment: 09/20/14
- Threatened Structures: 695 Single Residences, 28 Nonresidential Commercial Properties, 20 Other Minor Structures
- Continue aggressive action on all spot fires across Scott River Road and Scott River from Swanson Gulch and McGuffy Creek. Direct attack will be utilized whenever possible. Structure defense in that area and Mill Creek is in place. Mop-up 100% around structures.
- [See Fire Activity Section for detailed information.](#)

July Complex, Siskiyou County

4 miles southeast of Sawyers Bar

Per CAL FIRE, Cal OES Duty Officers, and ICS-209 as of 09/12/14 at 1749 hours:

FRA

- 46,500 acres, 78% contained
- Type 2 Team in command
- Destroyed Structures: 2 Other Minor Structures
- Patrol and mop up inside the line
- [See Fire Activity Section for detailed information.](#)

Gulch Vegetation Fire, Shasta County

Backbone Ridge, Jones Valley, 15 miles NE of Redding

Per CAL FIRE, Cal OES Duty Officers and ICS-209 as of 09/12/14 at 1746 hours:

SRA

- 1,300 acres, 60% contained
- Type 3 IC in command
- Threatened Structures: 107 Single Residences
- Continue building and improving direct line. Continue structure defense in the fire area
- FMAG applied for and placed on hold
- 26 Local Government engines and 7 watertenders assigned
- (2) Cal OES Fire Assistant Chiefs assigned
- [See Fire Activity Section for detailed information.](#)

OF EMERGENCY SERVICES

SITUATION SUMMARY

NORTHERN CALIFORNIA FIRES

Bald 3, Vegetation Fire, Humboldt County

Hoopa, Hoopa Valley Reservation

Per CAL FIRE as of 09/12/14 at 1619 hours:

FRA / HIA

- 200 acres, 0% contained
- Moderate rate of spread with heavy spotting
- No threats
- Continued commitment of CAL FIRE air resources

SITUATION SUMMARY

SOUTHERN CALIFORNIA FIRES

Silverado Vegetation Fire-Orange County

Silverado Canyon Road in the Cleveland National Forest, Orange County

Per CAL FIRE and Cal OES Duty Officers and ICS-209 as of 09/12/14 at 1600 hours:

FRA

- 1,200 acres and 0% containment.
- Mandatory Evacuations from 30331 Silverado Canyon east to the end of the road (fire gate), approx. 50 residences affecting approximately 220 people.
- Power lines are threatened, Per CUEA there is no threat to the power grid.
- Unified Command between the Cleveland National Forest and the Orange County Fire Authority..
- [See Fire Activity Section for detailed information.](#)

Meadow Vegetation Fire – Yosemite National Park, Mariposa County

Moraine Dome, East of Little Yosemite Valley, Yosemite National Park.

Per CAL FIRE and Cal OES Duty Officers as of 09/12/14 at 1810 hours:

FRA/YNP

- 4,933 acres, 49% contained
- Type 2 Team in command
- Threatened Structures: 3 Mixed Commercial/ Residential
- [Continue to construct and improve direct fire line where possible.](#)
- [See Fire Activity Section for detailed information.](#)

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

ACTIVE WEATHER WARNINGS, WATCHES and ADVISORIES:

- http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

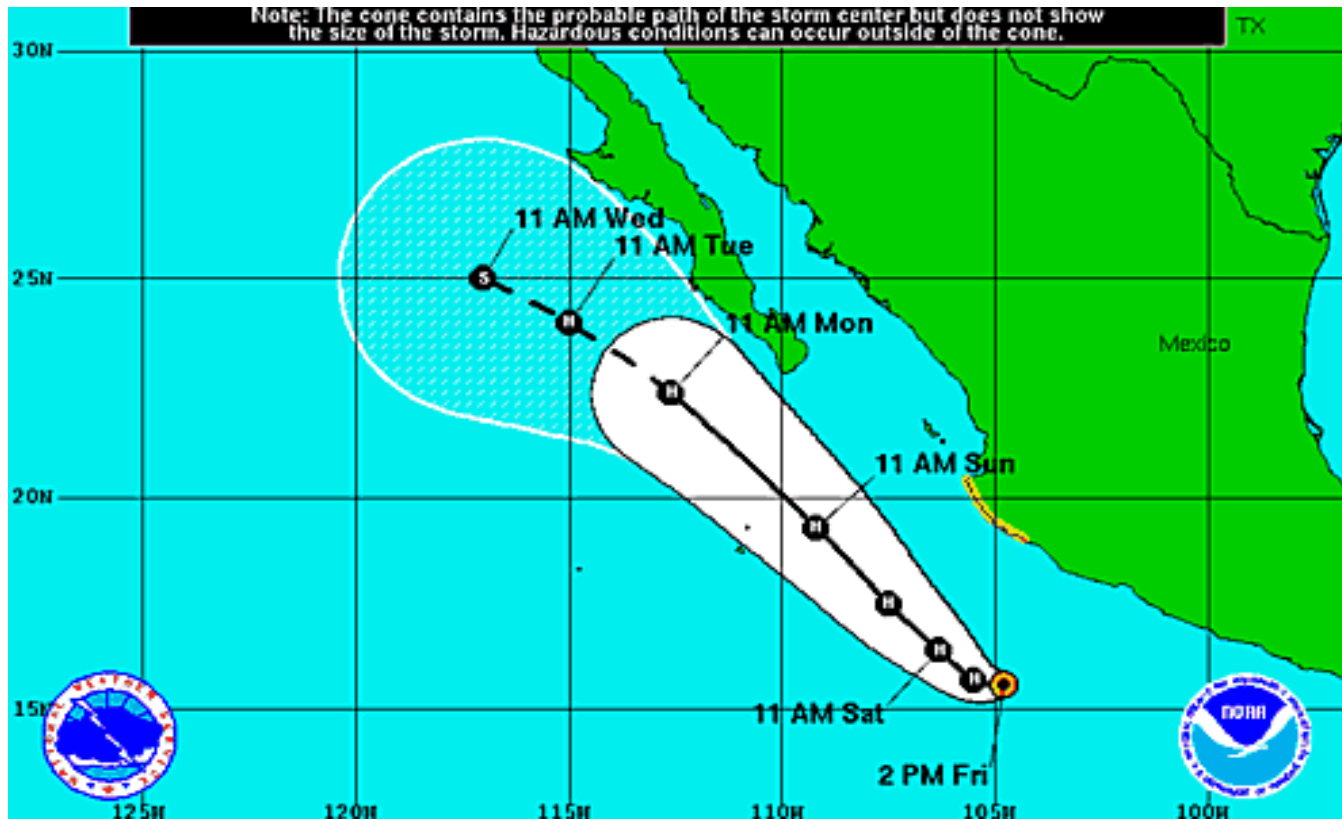

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

SITUATION SUMMARY

Tropical Storm Odile, Eastern Pacific Ocean

Odile is a Tropical Storm that is currently off the coast of Southwestern Mexico. Odile is slowly drifting toward the west and is forecast to continue the slow westerly drift through today, 9/12. Tropical Storm Odile is expected to strengthen and is forecast to be a hurricane 9/12. However, the center of Odile is expected to remain well offshore of the coast of southwestern Mexico through Saturday. National Weather Service, San Diego reports that Odile could bring a significant influx of moisture. This would bring the possibility of showers and thunderstorms with locally heavy rainfall.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA

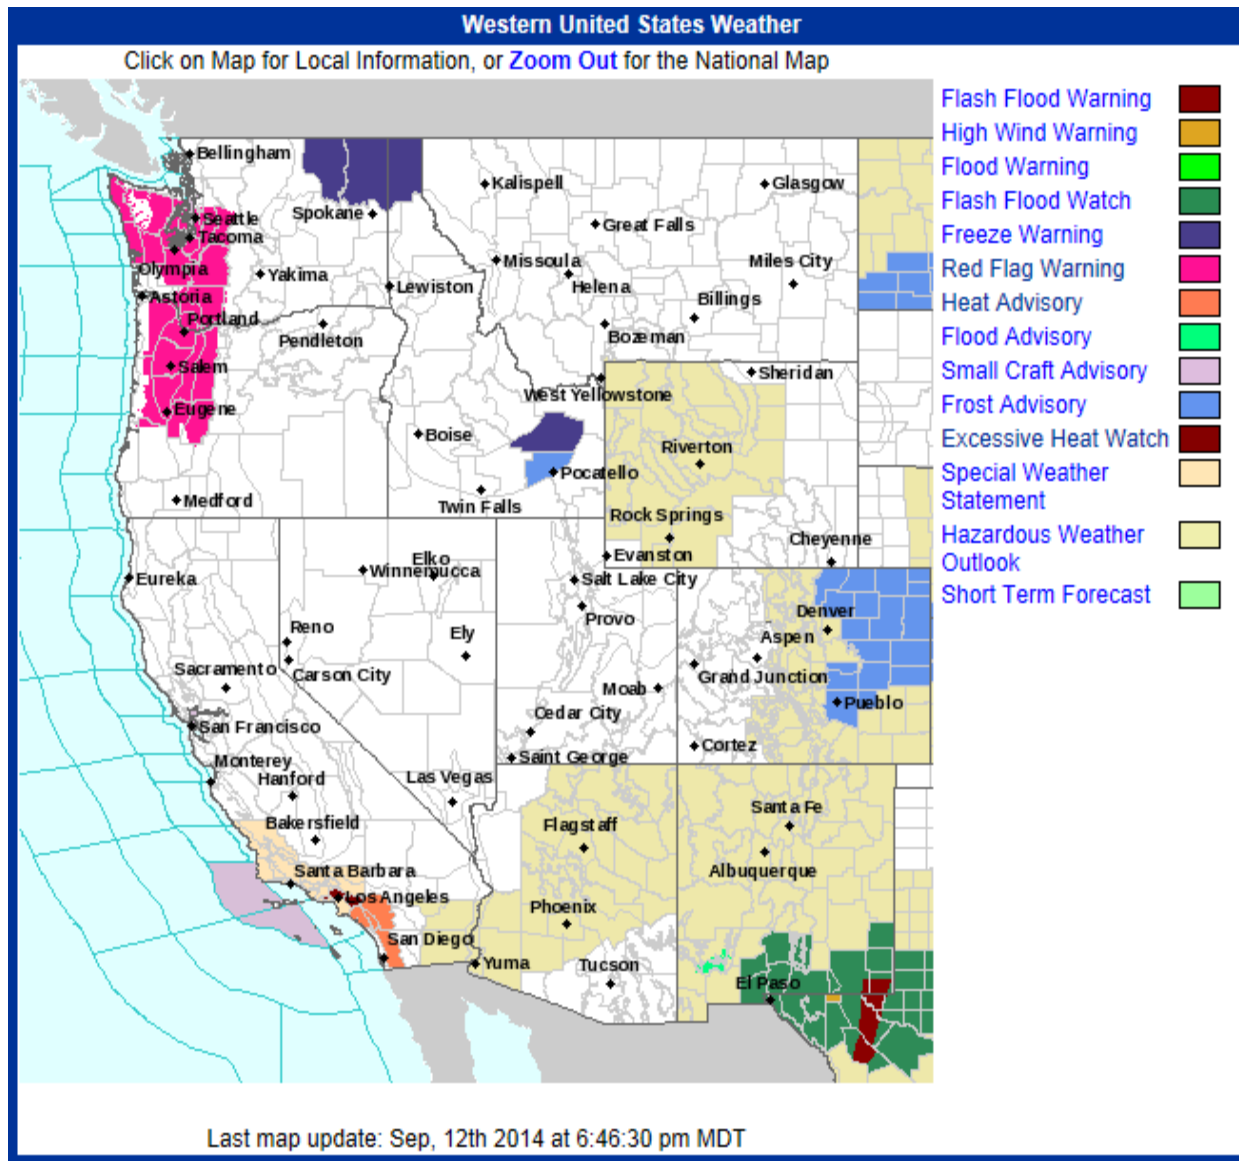

High pressure will be over the Northern California area through Saturday. This pattern will continue to produce warm and dry conditions with light general winds and poor overnight relative humidity recovery on mid and upper slopes, especially inland. Light northeast-east surface winds are expected during nights and mornings from the lower western Sierra-Cascade slopes to the coast as well. Temperatures in inland areas will be 7-10 degrees above normal and relative humidity will drop to 6-12% during afternoons, with nighttime recovery only to 30-40% at mid and upper slopes. On Sunday a weak low pressure area will deepen offshore as the high pressure moves east of the area. Increasing south-southwest winds will bring cooler temperatures, higher humidity, better overnight relative humidity recovery, and a deeper marine layer to the Northern California area by Monday. However, this pattern will bring a brief period of south-southwest downslope winds (gusts 25-30 mph) to areas east of the Cascade-Sierra Crest each afternoon beginning Monday. A stronger low pressure trough will deepen offshore Tuesday and Wednesday and continue these conditions across the Northern Operations area, then pass to the north on Thursday. Light rain is possible in far Northwest California late Wednesday and Thursday with this trough. A high pressure is expected to build in beginning Friday and bring warm and dry weather through next weekend, along with gusty north-northeast surface winds.

SOUTHERN CALIFORNIA

High pressure over the southern half of the country will maintain hot temperatures over the region through Tuesday, with 80s to low 90s in the mountains and mid 90s to 105 in the valleys. Minimum humidity will remain in the single digits and teens from Los Angeles County northward through Tuesday. Moisture will increase south and east of Los Angeles County causing minimum humidity to be between 15% and 30% over this part of the area Saturday through early next week. Isolated afternoon showers and thunderstorms will form near the Colorado River Saturday and then occur over the mountains and deserts of Southern California east of the Cajon Pass Sunday through Tuesday. A trough dropping down the West Coast will push the ridge of high pressure eastward causing significant cooling across the region Wednesday and Thursday. Moisture from what is now Tropical Storm Odile looks as though it will move northward bringing scattered showers and thunderstorms to much of Southern California Wednesday and Thursday and to the Sierra Thursday. Winds will be light and variable through the end of next week.

Emergency Management

Evacuations

- Mandatory Evacuations:
 - Scott River Road from Bridge Flat to the intersection of Hwy. 96.
 - All areas of Mill Creek Road five (5) miles east of Scott River Road.
- Evacuation Advisories:
 - Highway 96 from the Klamath River Bridge ½ mile west of Grider Road/Walker Creek Road to Scott River Road . This includes both sides of Hwy 96 and the community of Hamburg.
- Currently, there has been no request for LE Mutual Aid; Siskiyou Sheriff's Office, CHP, and US Forest Service LEO personnel, are assigned to Evacuation Advisories/Orders, security and road closure

Power/Electrical/Utility Problems:

- Flumes providing water to the community of Hamburg (Siskiyou OA) - approximate population 80 - were reported burned by the Happy Camp Complex Fire. Immediate water needs are being met through bottled water donations. Temporary repairs have been made and water is back in the system.

FIRE ACTIVITY

Happy Camp Complex, Vegetation Fire, Siskiyou County (Continued)

Shelters

- An evacuation center has been established at Winema Hall at the Siskiyou Golden Fairgrounds, 1712 Fairline Road, Yreka. Population: 4
- An evacuation center has been established at the Karuk Tribe's Senior Nutrition Center located at 64101 Second Avenue, Happy Camp.
- Both large and small animals will be accommodated at the fairgrounds.

Health and Medical

- A Clean Air Respite Center is located at the Family Resource Center at 11920 Main St., Ft. Jones. It will be open during the week from 0900 – 1700 hours. A clean air respite Center has been activated at the Karuk Tribe's Senior Nutrition Center located at 64101 Second avenue in Happy Camp, 0800 - 1700.
- A Health Emergency has been declared as a result of this Complex.

Road Closures

- China Grade Road is open to residents only.

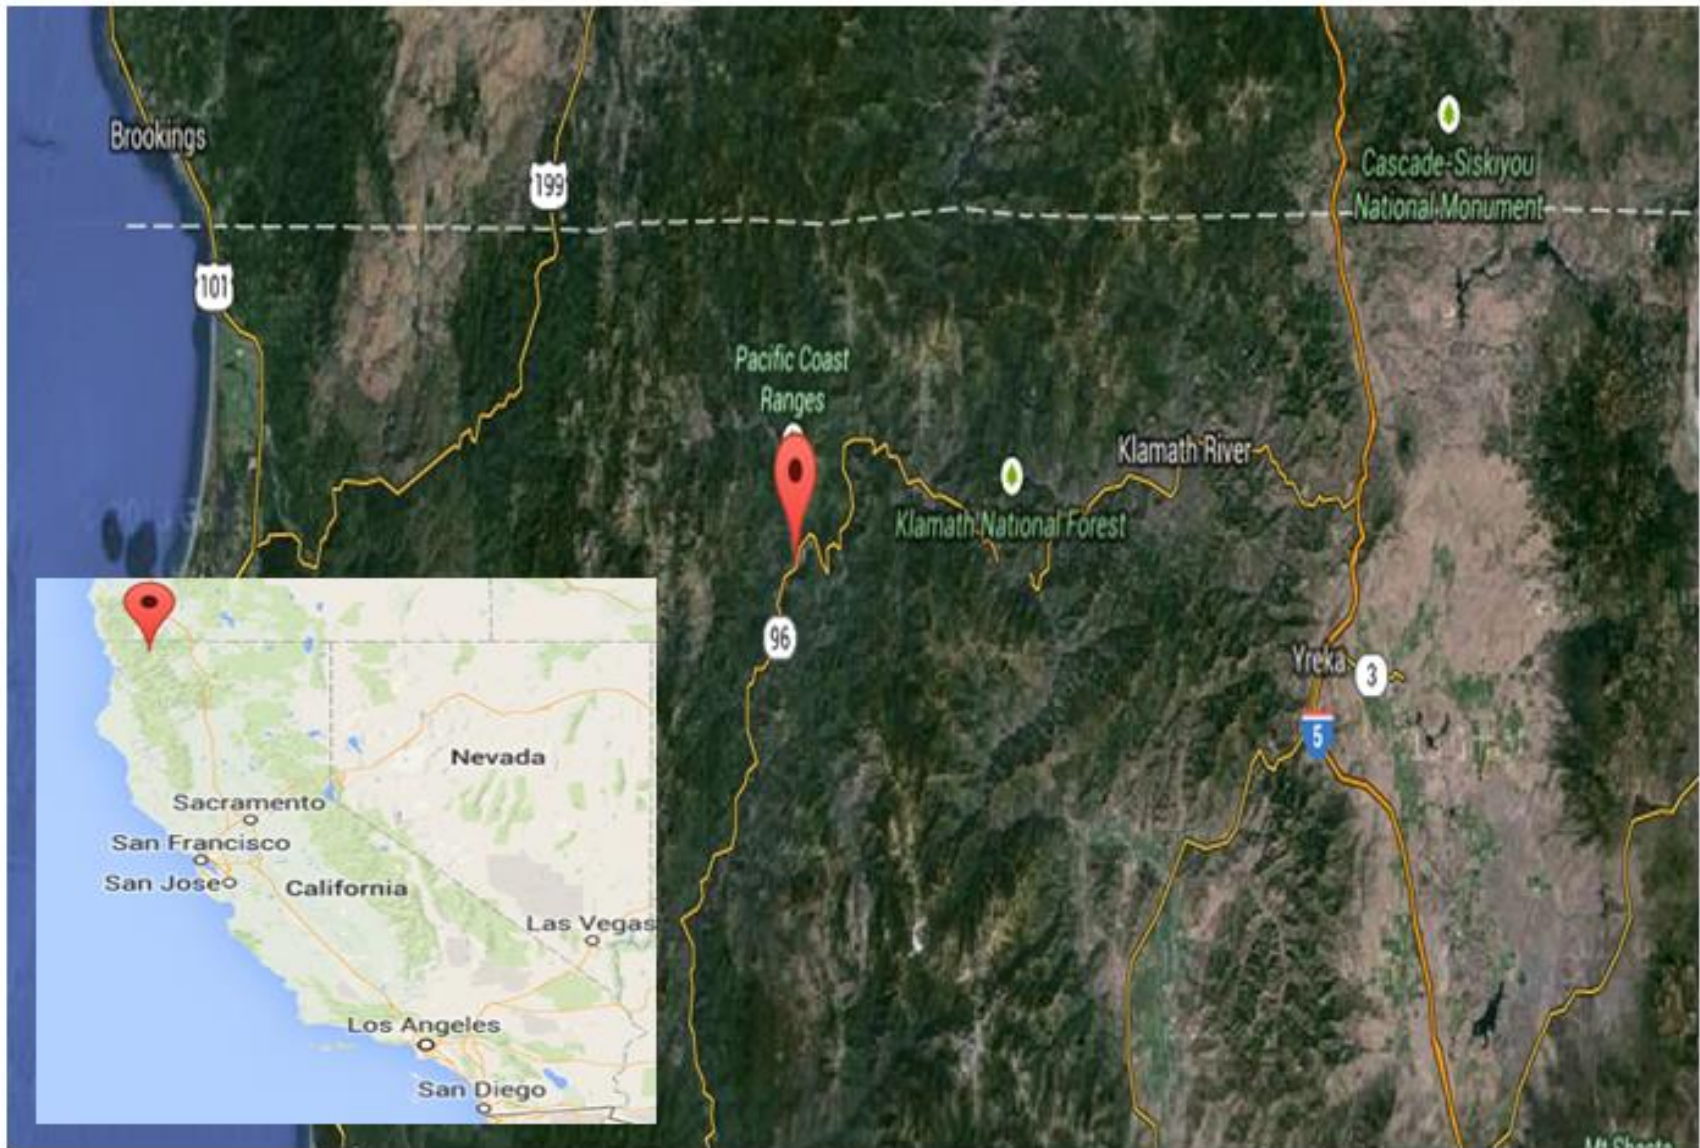

Activations

- Siskiyou County EOC activated Level 1

Mission Tasking

- **2014-IREOC-4568**
- Eight units are in continuing service.
- Due to commencement of school this week at the Klamath site, Unit #29 was relocated on 8/25 to a new site (Seiad Valley) 15 miles west.
- PM levels in the good to hazardous range ($>2,400$ mg/m³) were recorded intermittently at Happy Camp and Sawyers Bar.
- Other locations have predominantly good to moderate air quality with intermittent unhealthy air quality.

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2014-LAW-4996 **REOPENED**** This mission, a Search and Rescue (SAR) for a missing hiker, was originally opened on 8/16/14. After searching daily to no avail, the mission was closed on 8/25/14. On 9/10/14, Monterey Sheriffs Office (SO) requested to reopen the mission for a single operational period on Saturday, 9/13/14, to search for the missing person's remains. The request is for ten K9 teams and a helicopter to insert them. The Cal OES Law Branch K9 coordinator is working to secure the K9 teams. Monterey SO is requesting the helicopter to expedite deployment of teams in the field to maximize the available search time. The helicopter will be used only to insert teams and not for the extraction; the K9 teams will search all day Saturday, camp overnight and hike out on Sunday. Santa Clara SO has tentatively agreed to provide their helicopter, weather permitting. **UPDATE: 9/11/14, 2141 hours**, Cal OES LEB K9 Coordinator has secured 6 HRD teams for Saturday's search. **Mission Re-opened/Ongoing.**

Closed Cal OES Missions

- **2014-LAW-5754 9/11/14 at 1632 hours**, Placer County Sherriff's Office (SO) is requesting a Type II Cadaver dog to assist in the search and recovery of specific human remains missing following a suicide in which the victim jumped off of the Foresthill bridge in Auburn. The victims body was recovered this morning but several parts are missing, believed to have become dismembered during the fall. The requested resource(s) are to report to the SO SAR bldg. in Auburn, CA. at 0600 on 9/12. **Update: 2135 hours**, The Cal OES Law Branch K9 Coordinator advised there are no teams available for Friday and due to their urgency to complete the recovery, Placer SO will conduct the search on Friday with local rope teams and cancel the K9 request. **Mission Cancelled.**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
